

Fall Irrigation Inspections

Now that summer is leaving and we're getting the much needed fall temperatures, we are asking our clients to make changes to your irrigation clocks. Please turn your clocks to water only twice a week. If you need help, please call us for an Irrigation inspection. This inspection includes reprogramming the controller, resetting the run days, run times, and adjusting all heads for proper coverage. Typical irrigation inspections for residential properties are \$85.00 plus material if needed. Please don't forget to winterize your backflow preventer with our custom insulated Frost cover bag. Call us for details.

Lawn Maintenance Division

Please welcome our new Lawn Maintenance Field Manager, Jeremy McCutcheon. Jeremy brings a wealth of lawn maintenance knowledge and customer service. Please remember that October starts the first round of frequency changes. Please call us for any questions you may have regarding your account.

Fall Annuals

Now is still a great time for fall annual color. We are working with local growers to supply our clients with plants and colors of their choice. If you have the desire to have the most stunning flower beds, call our office to set up an appointment and get ready for the best color your property has ever seen.

Pest Control

Turf fungus will start arriving with the cooler temperatures. As we make our rounds to all our clients and to help us keep your properties looking great, please let us know if you see any turf discoloration or unusual turf conditions, as a service call may be necessary before your regularly scheduled visit.

Hardscape

Lawn Enforcement Agency offers a full range of design services. Please call Mike Troiano and schedule an appointment to visit our newly designed showroom with many Hardscape designs, colors, and patterns. Mike has over 20 years of hardscape experience to make your property attractive, colorful, and low maintenance.
